

Placement cell

The placement cell of this college has conducted many training programs to help the students in developing the personality and also to train them to face interviews the by building their career.

One of the main responsibilities of the placement cell is to motivate train and prepare the students for campus interviews. We have been conducting two day workshop every year on topics like importance of attitude building, personal accountability, teamwork ,time management ,way to success, importance of communication, listening skills, interview handling skills , resume building etc.

Following students are placed at various companies through campus recruitment drive.

Orientation class and DWMS app downloading

The orientation class and DWMS app downloading session provided students with essential information and tools to streamline their final-year academic journey. The session was well-received, with active participation and positive feedback. It was organized on 10/01/2024 for final year UG and PG students.

Placement Drive by Anson group of companies

The placement drive conducted for final year UG and PG by the Anson Group of Companies on 05/03 /2024 was a successful initiative, providing students with valuable career opportunities. The event witnessed active participation, and feedback from both recruiters and students was overwhelmingly positive.
